

Action Guide

TEI 289: Become and agile leader of product management
Roman Pichler

Application Questions

1. Describe a time when you have seen the importance of soft skills in product leadership, either in yourself or someone else.
2. What challenges do you face with having responsibility but not authority?
3. Is there a clear vision for your product? If so, what is it? If not, how would a product vision help you?

Actions to Take

What to Do Now

- Facilitate trust by developing empathy, listening deeply, acting with integrity, and getting to know colleagues personally.
- Cultivate mindfulness by being self-aware and present.

What to Do Soon

- Consider holding a collaborative workshop to create a product vision.
- Evaluate your time management and identify areas for improvement.
