TEI 293: FAST Goals for better aligned product projects

Jeannine Sivy

Application Questions

1. Have you ever found yourself ahead and needing to slow down so that you don't stretch the Slinky Dog too far?
2. Describe a time when you've had many different voices in the room and needed alignment.
3. What's a goal you would like to accomplish? How could you achieve it? Why is it important?

Actions to Take

What to Do Now

- Consider how the FAST Goals process could help align and empower your team.
- Identify a goal you could solve using FAST Goals. Brainstorm unsolved problems.

What to Do Soon

- Consider using FAST Goals to align your team to solve a goal.
- Next time you begin a new project, answer the question, "Why are we doing this?"
